

# VALUE FOR YOUR MONEY

## »SHERPA« D

UP TO 1,000 H MAINTENANCE INTERVAL

### SERVICE BENEFITS »SHERPA« D

#### PRODUCT PLATFORM

»SHERPA« D (8,000 LBS TO 18,000 LBS)

Identical components mean: reduced storage costs for spare parts, 100% availability of spares in stock, every engine has the same filter specifications.

✓ **One operating, training and maintenance concept plus similar spare part inventory for all vehicles.**

## COMPONENT SPECIFIC BENEFITS

### DISC BRAKES ON THE FRONT AND REAR AXLE

No (re-) adjustments required, as with a drum brake. Fewer mechanical parts and optimal accessibility.

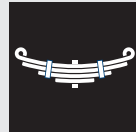

✓ **Fast and easy maintenance.**

### PARKING BRAKE

Designed as a spring-loaded disc brake on the axle input, rapid maintenance and repair.

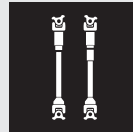

✓ **Fast and easy maintenance.**

### LEAF SUSPENSION

High suspension comfort, specially developed for »SHERPA«.

✓ **Reduced maintenance effort through use of rubber bushing. No lubrication required.**

### CARDAN SHAFT

Maintenance free – no greasing required.

✓ **Completely maintenance free.**

### REDUCED CONSUMABLES

One hydraulic fluid tank for both steering and braking.

✓ **Simplified fluid maintenance, less storage and effort when changing.**

### OPTIMIZED ACCESS FOR MAINTENANCE

Separate transmission maintenance flap in the footwell of the cabin for easy access to filters, transmission oil, dip stick and filler neck.

✓ **Fast and easy maintenance.**

### FAST DIAGNOSIS

Indication of error codes via cockpit display. Fast error detection and localization.

✓ **Reduction of downtime.**

HIGHER MAINTENANCE EFFICIENCY OVER THE LIFE CYCLE

REDUCTION OF THE TOTAL COST OF OWNERSHIP
